Top tips for students

- **Knowledge is not enough.**
- You must also spend time developing your skills, such as calculations and ‘chunking’ case studies for application (AO2). You **must** use the case studies provided.
- You must be 100% confident with what exam structure is required for every question type so as not to lose easy marks or run out of time.
- Practice writing under timed conditions.
- With 3 mark questions, if in doubt include an **example** or a **‘However, it depends on.....’**
